## WaterFurnace Announces the Clean Start Rebate

This year everyone deserves a clean start! Switching to geothermal is the perfect decision to help your house be as comfortable and environmentally friendly as possible for years to come. Now, the WaterFurnace Clean Start Rebate makes switching to the cleanest heating and air conditioning systems available an even smarter decision. For a limited time, you can save up to \$1,250 and receive a free Amazon Echo Dot with the purchase of select WaterFurnace units and accessories.

This promotion is available on qualifying orders of our most efficient, comfortable, and technologically advanced geothermal heat pumps:

- 7 Series Variable Speed System
- 7 Series Variable Speed Split System with air handler
- 5 Series Dual Capacity System
- 5 Series Dual Capacity Indoor Split System with air handler
- 5 Series Dual Capacity Outdoor Split System with air handler

### Benefits of geothermal

#### Cost effective

Geothermal is the most cost effective way to heat and cool your home. Our incredibly efficient units make it even easier to save on monthly bills.

#### Everything in Harmony

Imagine a home comfort platform that can provide detailed feedback of your comfort system in real-time and the tools to control it all from any web-enabled smart phone, tablet, or computer. That's Symphony.

#### Incredible comfort

WaterFurnace units provide precise, even temperatures and eliminate cold or warm spots. It's luxurious comfort you have to experience to believe.

#### Environmentally friendly

The innovative loop system of a geo unit makes it possible to heat and cool without producing harmful greenhouse gasses.

#### Safe

Because natural gas, propane, or oil isn't required to operate a WaterFurnace system, there's no combustion, flames, or fumes and no chance of carbon monoxide poisoning.

#### Reliable

Geothermal units have an average equipment life of 25 years while the underground loop system has a rated material life of more than 100 years.

7 Series 700A11
